Benefits of IEEMA Membership

- IEEMA organises technical product-specific national / international conferences and workshops for knowledge sharing and networking opportunities for members with utilities, professionals, international experts and organisations. IEEMA offers discount to Institutional Members' as well as to the Students for participation.
- IEEMA conducts technical activities under its various Product Divisions and Cross-Functional Divisions, where members meet and discuss issues concerning the industry, its growth opportunities, skill development etc. IEEMA offers an opportunity to students to work on research projects in Technical committees set up by the Product Divisions from time to time
- IEEMA produces well researched publications and reports, including the monthly IEEMA Journal which provides value-added information, statistics, business opportunities, and informative and technical articles on power and electrical equipment. IEEMA offers complimentary subscription to Institutional Members for the monthly publication "IEEMA Journal" (IJ copies to Principal, HOD-Electricals, Placement officer)
- IEEMA collects and compiles production data for various types of electrical equipment and disseminates the compiled aggregated statistics to members which assists them in understanding market trends and planning their future strategies. Statistics on imports-exports also form a part of this service. IEEMA offers complimentary access to these data to Institutional Members.
- IEEMA organises ELECRAMA, the largest focussed T&D (transmission & distribution) equipment exhibition every two years to provide members an opportunity to showcase their products and technology to a global audience. IEEMA provides opportunity to students of engineering colleges to participate in Students' Pavilion to display their projects in the Exhibition (subject to selection by the Scrutiny Committee).
