

Workshop on “Electrical Safety at Workplace”

CEA, jointly with IEEMA and IEEE organized a one day Workshop on “Electrical Safety at Workplace” on 9th October 2018. The session started with welcome address by Director General IEEMA, Mr. Sunil Misra, context setting by Shri Goutam Roy, Chief Electrical Inspector to Government of India followed by keynote address by Immediate Past President IEEMA, Mr. Shreegopal Kabra and inaugural speech by Mr. P.S. Mhaske, Chairperson, CEA. Two Senior Experts from IEEE, US, Mr. Sam Sciacca, Sr. Director, Technical Program Operations, IEEE and Mrs. Akanksha Craft, Senior Engineer, Public Service Commission of Wisconsin, USA were invited by IEEE to apprise the participants on NESC (National Electric Safety Code) USA, its purpose, use and how India can benefit from this. The session had 7 presentations on various aspects of Electrical Safety at Work place. The event saw participation from more than 120 delegates representing Industry, State Electrical Inspectorate, Standard making bodies etc.

***Insulator Division meeting***

Meeting of Insulator Division was held on 12th October 2018 at IEEMA, Delhi office, under the Chairmanship of Mr. Vikas Jalan, which was attended by various member companies. Mr. Naveen Upreti, Sr. Executive Officer, represented IEEMA at the meeting. The discussions were broadly on State of the industry, Insulator Data Statistics, discussion on disruptive technologies, activities under BIS Electro-technical Committee (ET-06) and IEEMA Insulator technical committee etc.

Review meeting of Mission Plan 2012-22 of Indian Electrical Equipment Industry

On 16th October 2018, Mr. Vikas Khosla, Chairman, Public Policy Cell, Mr. Sunil Misra, Director General and Mr. Sudeep Sarkar, Director, IEEMA, attended a review meeting of Mission Plan 2012-22 of Indian Electrical Equipment Industry. The meeting was chaired by Mr. Praveen Agarwal, JS, DHI.

IEEMA made a presentation during the meeting on the objectives of the Mission Plan when the same was devised and the present status. A majority of the recommendation of the Mission Plan were either implemented or brought to a logical conclusion.

Further, it was decided that there is need for preparing a new Mission Plan for the next decade as significant changes in the environment have taken place since the time Mission Plan 2012-22 was made. It was decided to include chapters on Renewable Energy, eMobility, Smart Grid and Cyber Security which have gained prominence in the emerging landscape, while the period of the earlier Mission Plan is approaching its end.
